

CEFIRO

COUNT

Nm 23.000

COMPOSITION

- PAPER 55%
- COTTON ORGANIC 44%

GAUGE

- 12G-1P

TYPE OF YARN

- STRAIGHT

COLOR STOCKS

- ALL COLOR STOCK SERVICE
- OWN COLOR MINIMUM:3KG

DESCRIPTION

CEFIRO is a twist of premium branded Japanese paper, “Mino-washi”, and organic cotton. The paper is cut into thin strands and spun with cotton, therefore the yarn itself has a circular structure. When knitted, CEFIRO has firmness and smooth texture unique to paper products, resulting in lightweight products that don't cling to the skin.

【Caution when knitting with paper】

Japanese paper material has low elasticity. For knitted structures that require more strain, (cables with large cross section, extreme tight or loose tension, sudden decrease in fully fashioning) may lead to yarn breakage or damage.

Please take into consideration this quality when designing. To maintain a stable tension and stable cone positioning, using a thread net will prevent yarn slip on the cone.
