

FIENO

COUNT

Nm 13,000

COMPOSITION

- COTTON ORGANIC 100%

GAUGE

- 7G-2P
- 10G-1P
- 12G-1P

TYPE OF YARN

- TAPE YARN

COLOR STOCKS

- ALL COLOR STOCK SERVICE

DESCRIPTION

FIENO is a unique material made from fine-count organic cotton formed into a tape shape with a special finishing. Its natural firmness creates a light and airy feel, while variations in gauge and knitting methods allow for diverse fabric expressions.

Note: This yarn is processed with Linesta finishing. Please be aware of the following:

During fabric washing, some resin may be lost, causing a slight difference in color appearance before and after washing, or between yarn and fabric. Due to its flat shape, colors may appear to flicker depending on the knit structure.

【Care Instructions for Linesta Processing】

Texture may vary slightly depending on shade and lot.

If the yarn feels stiff or difficult to knit, we recommend waxing or knitting at a low speed.

Use water below 40°C and tumble dry at a low temperature (below 60°C, within 30 minutes).

Iron at low temperature only. Do not use steam.

Due to the characteristics of Linesta processing, some powder shedding cannot be completely avoided.

Immersing in water above 40°C or ironing while wet may cause the special resin to peel off. We recommend washing this product in water.

For dark colors, wet rubbing fastness may be poor and difficult to improve.

WASHING INSTRUCTION
