# **DESCRIPTION**

Making full use of Japanese original technology of deknit (unknit) processing, we further improved the design and developed the autumn/winter version of deknit yarn. In order to create a fine, delicate and beautiful deknit yarn, we have newly developed an ultrafine original yarn by combining wool and viscose just for the purpose of this deknit project. By using this ultrafine viscose and wool yarn and adding the uniquely designed deknit processing, the delicate and beautiful crepe expression is the only yarn in the world.
