#### DESCRIPTION

MATER LILY is a lily yarn (tube) made of MATER 2/50. With the hollow structure, the yarn is much lighter than the code yarn. Because of this feature, it is available to create low gauge knitwear with a light and supple feeling. One of the features of MATER LILY is that the cashmere of the yarn is recycled from the waste during spinning. By blending with the cotton fiber, the waste is reborn and becomes an eco-friendly material.

#### WASHING INSTRUCTION
