

PUFF II

COUNT

Nm 16.000

COMPOSITION

- WOOL 80%
- POLYAMIDE(NYLON) 20%

GAUGE

- 12G-1P

TYPE OF YARN

- BOUCLE YARN

COLOR STOCKS

- ALL COLOR STOCK SERVICE
- OWN COLOR MINIMUM:3KG

DESCRIPTION

PUFF is an extra fine wool with boucle yarn.

The boucle is formed with close-to-untwisted fibers. Therefore it has an air-containing structure, lightweight with volume. With a versatile yarn weight of 1/16nm, PUFF can be used in 12G jacquard machines. As shrink-resistant wool is used, it is hand-washable. It may be prone to light piling by friction due to the boucle qualities.
