- COTTON ORGANIC 35%

## GAUGE

- 14G-2P
- 16G-1P

## TYPE OF YARN

- STRAIGHT

## COLOR STOCKS

- ALL COLOR STOCK SERVICE

## DESCRIPTION

Proof PLUS ECO Clear is a yarn blend Organic Cotton and recycled polyester. This yarn has a water-repellent treatment. We are using the ECOPET® for our recycled polyester. This polyester is extracted from used plastic bottles, polyester fiber fragments, and fabrics. With the water-repellent treatment, water droplets will roll down from the surface of the knitted fabric. It also has an excellent quick-drying property due to its low water retention rate. As a unique water-resisting yarn for knit, it opens up new possibilities for knitting purposes.

※the water resistance will differ based on the knit structure of the fabric.

All color stock service.

※Customized fluorine free water repellent yarn is also available. The fluorine free water repellent finishing is natural and eco-friendly.

## WASHING INSTRUCTION
