#### DESCRIPTION

Proof PLUS  $\alpha$  is super water repellent yarn. Water repellent effect is processed on the yarn.

Knitted fabrics repel the water by super water repellent processing and it's make the garment hard to get wet.

\* A water repellent effect differ by knitting structure. Fluorine free (C0) water repellent yarn is available. It is made with ecofriendly and naturally derived material. (Custom order)

#### TECHNICAL RECOMMENDATION

[The care for having complete water repellency] Due to the water repellent finishing of the PROOF PLUS series, the yarn can not slide as smoothly as usual. Therefore, an oil finishing is added in the end in order to improve the problem and make it easier to knit.

If the oil is left on the garment, the water repellency may be affected. Please wash the garment with pH neutral detergent to get rid of the oil. Then, please rinse the garment thoroughly and tumbler dry the garment.

#### WASHING INSTRUCTION
