- POLYAMIDE/NYLON(RECYCLED) 67%
- POLYESTER 33%

GAUGE

- 14G-1P

TYPE OF YARN

- STRAIGHT

COLOR STOCKS

- ALL COLOR STOCK SERVICE

DESCRIPTION

This semi-transparent yarn is made with recycled nylon, featuring a smooth, dry touch. Its thin, lightweight, and sheer quality is its main characteristic, enhanced with a subtle luster. It is an excellent choice for designs that incorporate transparency.

※Notes

Please avoid rewinding the yarn, as it may cause fabric damage during knitting.

Always set with heat the fabric before washing. Heat drying may cause wrinkles.

Avoid overheating during setting or pressing the fabric directly with an iron, as it may cause discoloration or marks.

For ironing, please use a maximum soleplate temperature of 110°C.
